Professional Summary

Motivated Software Engineering student with strong interest in Full Stack Web Development and hands-on experience building responsive web applications. Skilled in frontend technologies including HTML5, CSS3, Bootstrap, JavaScript, and jQuery, along with backend development using PHP and MySQL. Experienced in developing, deploying, and hosting real-world projects through practical implementation. Eager to contribute to professional environments while continuously improving technical and problem-solving skills.

Education

Bachelor of Software Engineering

2024 – Present

Mehran University of Engineering and Technology, Jamshoro

Technical Skills

- **Programming Languages:** C++, Java, JavaScript, PHP
- **Frontend Development:** HTML5, CSS3, Bootstrap 5, jQuery
- **Backend Development:** PHP, MySQL
- **Deployment & Hosting:** cPanel Hosting, InfinityFree, Web Hosting Configuration
- **Tools & Platforms:** VS Code, Git, GitHub, FileZilla
- **Core Concepts:** OOP, DSA, Database Management, Responsive Design, and Computer Networking

Full Stack Projects

Hostellify – Multi-Role Hostel and Complaint Management System

Demo: hostellify.com

Tech Stack: HTML5, CSS3, Bootstrap 5, JavaScript, jQuery, PHP, MySQL

- Developed a hostel management system with 3 user roles, 15+ functional modules, 8 normalized database tables, and OTP-based authentication.
- Implemented secure authentication, booking management, complaint handling, and admin dashboard functionalities.
- Created normalized relational database structure with secure session handling and SQL injection prevention.
- Deployed the project on live hosting environment and managed deployment configuration successfully.

Personal Portfolio Website

Demo: Aarish Ali Portfolio

Tech Stack: HTML5, CSS3, Bootstrap 5, JavaScript, PHP, MySQL

- Designed and developed a professional portfolio website to showcase projects, skills, and technical profile.
- Implemented responsive design, dark/light theme toggle, smooth animations, and interactive UI components.

Frontend Projects

Salesforce Frontend Clone

Tech Stack: HTML5, CSS3, Bootstrap 5, JavaScript

- Built a clean and responsive Salesforce-inspired frontend interface.
- Developed responsive layouts with modern UI structure.

Rock Paper Scissors Interactive Game

Tech Stack: HTML5, CSS3, JavaScript

- Developed an interactive browser-based game using JavaScript and DOM manipulation.
- Implemented score tracking, game logic, and responsive user interface.

Achievements & Certifications

- Successfully deployed multiple web projects on live hosting platforms and managed deployment configurations.
- AI Essentials Specialization, Computer Networking and Cloud Computing, and Design Patterns certifications completed through Coursera.
- Active participant in English Speaking Club activities, debates, presentations, and communication events.
- Strong problem-solving skills and passion for modern web technologies.
